1. Go to https://oc.techsmithrelay.com/

2. Click on the “Sign In” button.

3. Look on the right side of your screen. Click on the link called “Create a new account”.
4. Provide your @myoc.odessa.edu email and create a password. You MUST use your @myoc.odessa.edu email – this is the only domain that the Odessa College TechSmith Relay site will accept for student authentication.

Note: When creating your password, make sure that you use a combination of at least 8 alpha and/or numeric characters.

5. Click the Sign Up button.

6. Once you hit Sign Up, you will see the screen shown below. An email will be sent to your @myoc.odessa.edu account.

7. Go to http://mail.google.com/a/myoc.odessa.edu and log in to view your student mailbox. In the mail box you should find an email from TechSmith that will ask you to Verify your TechSmith account email address.

8. Click on the link provided in the email that says “Yes, I verify that this is my email address”.

You have successfully created your TechSmith Relay account! You can now use this account to sign in when you need to create or view videos in TechSmith Relay.
